

## Comparison Table

**TeleChart®2007**

Feature	TeleChart		StockFinder		Explanation
	Gold	Plat	Gold	Plat	
Offline 25 year historical databank on your hard drive	✓	✓	✓	✓	"Take it with you convenience" and ultra snappy charts & scans. Hard drive data runs thousands of times faster than online data.
Hundreds of built in and automatically maintained watchlists	✓	✓	✓	✓	Covers index components, industries, ETF's, and exchanges. Symbol changes are handled automatically.
Visual Sorting	✓	✓	✓	✓	A quick way to sort your stocks based on the current position of an indicator on their charts.
Data Sheet	✓	✓		✓	Table of current fundamental & financial rankings for 40+ criteria.
Daily Worden Report	✓	✓			Written by legendary technical analysis pioneer, Don Worden.
Daily notes, chart lessons, stock picks, and examples by Peter and Don Worden	✓	✓			It's a real-life education inside your software every day.
Best online community of clubs & chat between users				✓	Thousands of traders share their expertise and experiences on throughout the trading day and on weekends.
Peter Worden participates in chat				✓	It's the best place for a trader to be, so why wouldn't Peter Worden be on here sharing his opinions and looking for feedback.
EasyScan for over 40 criteria fields	✓	✓			The original 2-second scan is still the quickest, easiest way to filter a WatchList down to your watch candidates. No programming ... just a simple graphical range selector to grab the stocks ranking at any part of the market.
Online streaming data				✓	You get streaming real-time charts with limited real-time scanning & sorting. The advantage is that it requires small hard-drive space and a quick install.
Online & offline streaming data feed				✓	You get streaming real-time charts with UNLIMITED custom real-time scanning & sorting. Requires 10 gigs of hard drive space and 1+ hour install.
Write your own indicators and rules in RealCode (true Microsoft Visual Basic. net)			✓	✓	Amazing capability to design indicators and scan rules in a true robust programming language. The editor is one-click away from your indicators.
Expandable library of hundreds of technical indicators			✓	✓	There is no limit to what can be created and shared – which means this will be the largest technical analysis library available anywhere.
Unlimited charts and indicator panes			✓	✓	Keep the charts you use most often at your fingertips. Spread your analysis across multiple monitors.
Share charts with other users		✓	✓	✓	Learn from others, share your knowledge, communicate ideas.

Track your live positions through TD AMERITRADE, optionsXpress or Interactive Brokers				✓	Login to your online brokerage account and view the open positions in your portfolio.
Connect to TD AMERITRADE, optionsXpress or Interactive Brokers and makes it easy to trade by clicking on the chart			✓	✓	You can place a trade directly from the Trade Slider on your chart. The slider shows pending orders and positions and where you are in the trade.
MoneyStream & Balance of Power Indicators	✓	✓			Uncover hidden buying and selling to identify where the smart money is flowing in the market.
BackTesting			✓	✓	Any "rule" can be visually dragged into Back-Scanner to test how it performed historically.
News stories from over 40 different sources		✓		✓	You get access to over 70 news sources neatly consolidated inside one window by ticker symbol.
Integrated browsers by symbol			✓	✓	Your favorite stock research websites at your fingertips.
Save custom layouts			✓	✓	You control how your watchlists, charts, browser windows, etc. are arranged in the software.
Create custom indexes for any watchlists based on price, indicators or rules.			✓	✓	Build an index from your own personal watchlist or the percentage of stocks passing a rule.
Create visual rules based on indicators on chart (i.e. lines crossing, above, etc.)			✓	✓	Finding stocks crossing above a moving average is a simple click-and-drag process.
Morningstar historical company fundamental & financial stats				✓	14 year database of company financials – earnings, market cap, dividend yield, earnings per share, etc.
Zacks historical earnings estimates & analyst ratings				✓	Zacks data is different. It is "forecast" or "projection" data. Zacks has compiled dozens of analysts' earnings estimates and ratings over the last 14 years for thousands of stocks. Plot them to see how well they did in the past – and to see what they are forecasting now.
Plot historical fundamental graphs				✓	When's the last time you looked for stocks crossing their earnings moving average? Or surges in institutional ownership?
NewsBuzz				✓	NewsBuzz points you to the stocks experiencing a surge in news volume so you know what news is relevant to read right now.
Instant symbol & company name search			✓	✓	Just start typing any part of the symbol or company name to narrow the list.
Drag-n-drop indicators to overlay, separate panes, create comparisons			✓	✓	Click on any plot and drag it to overlay on another pane, move it to its own pane or create a custom indicator or rule.
Scan based on rules from mixed time-frames			✓	✓	Find stocks above their 200 day moving average and oversold on their 12-minute stochastic.
Drawing Tools	✓	✓	✓	✓	Trendlines, Fibonacci, chart notations, regressions.
Voted #1 for 15 years	✓	✓			Best Stock Software Under \$500 by the readers of Stocks & Commodities magazine.
